

Pre K Lesson 1: What is a Plant?

From:

<http://www.easypacelearning.com/science/plants/plants/1330-plant-life-cycle-of-a-flowering-plant>

## Stages of a seed after it germinates

After the seed starts to germinate, a small root called a radicle and a stem start to grow out of the seed. This will continue to grow till it is a young plant.
